Public shooting range 10 miles north of Rapid City on Elk Vale R. I strongly oppose this public shooting range as the Norman Ranch and neighbors have livestock bordering this property. This is ludicrous to try and put shooting range here

What is you plan for the 2022 open water season for the Oahe system? It seems we may have a few ramps available for the entire system based on the Extreme low water situation. Wouldn't it be in the best interest to start on new LOW water ramps this fall/winter to be ready for the public in 2022?
